Jetson GEMM-FP16 energy error: independent runs and same-trace reconstructions (historical runs 2–14, n=13)
2 kS/s
Independent real measurements
Independent-run energy error (%)
5th–95th percentile
Anti-aliased common trace (controlled best case)
Bandwidth-saturated high-rate anchors
Same-trace energy error (ppm)
5th–95th percentile
Phase-only common trace (no target-rate AA filter)
Same-trace energy error (%)
Nominal sampling rate (S/s)
